# Postpartum Doula Recertification *Guidelines*

### Instructions for Recertification

#### **Maintain continuous membership in DONA International.**

- DONA certified doulas must maintain continuous membership with DONA International. To verify that your membership is current, check the date printed on your International Doula mailing label.
- When applying for recertification, a recertifying doula whose membership has lapsed no more than one (1) year may purchase the lapsed membership time and must also pay any applicable late fees and certification reinstatement fees according to the Lapsed Membership Policy.
  - Pay your DONA International membership fee on-line in the DONA Boutique or mail a check or money order in US funds to the DONA International Home Office.
  - Failure to maintain current membership may delay the recertification process or lead to certification revocation.

Doulas are encouraged to regularly submit to the Home Office a **Postpartum Doula Data Collection Form** for each postpartum experience.

Obtain a minimum of eighteen (18) contact hours of continuing education approved by a recognized organization in areas relating to the perinatal or postpartum period (birth, breastfeeding, postpartum mood disorders, etc.) or early parenting. Contact hours must be earned during the current three (3) year certification period.

- **Required documentation for continuing education:**
  - Copy of the Certificate of Attendance indicating the number of hours earned, the name of the approving organization, the topic, the date and your name. Please keep your Certificate of Attendance for your records. You will be asked to mail a copy of your Certificate of Attendance to DONA International if your application is randomly selected to be audited.
  - Completed DONA Application/Affidavit for Postpartum Doula Recertification verifying your attendance at the continuing education program(s)
- **Acceptable sources of continuing education:**
  - Hours offered at a DONA International annual conference. Attendance at the full conference, even though the number of contact hours offered may total less than eighteen (18), satisfies the minimum number of contact hours required for recertification.
  - Contact hours earned through continuing education programs, workshops and seminars approved by DONA International.
  - Hours offered by recognized organizations that provide contact hours for maternal/child health professionals. Examples include, but are not limited to, state/provincial nursing organizations, Lamaze International, International Childbirth Education Association (ICEA) and International Board of Lactation Consultant Examiners (IBLCE). Details are available on the web site.
  - **Alternatives to Continuing Education**
    - Acceptable alternative options and submission requirements are listed below.

You may purchase one (1) six (6) month recertification extension on-line through the DONA Boutique, which will extend the deadline for submission by exactly six (6) months. This extension will not affect your certification period or your next certification expiration date, which will remain on the original schedule. See the Recertification Lapse Policy for further details.

#### **Verify the accuracy of all information and documentation provided by completing, signing and returning the Application/Affidavit for Postpartum Doula Recertification.**

- DONA International recommends that recertification applications are mailed two (2) or three (3) months in advance of the deadline, but they must be postmarked no later than your certification expiration date. Please allow eight (8) weeks for processing.

**Submit the Recertification Application Fee in US funds or a copy of your DONA Boutique order confirmation receipt with your Application/Affidavit for Postpartum Doula Recertification. – Active Status**

## Continuing Education Information

The DONA certified doula is expected to continue to learn and grow professionally and to expand and deepen her/his skills and knowledge by attending continuing education programs for professionals.

Professional organizations use a uniform unit of measurement to record participation in non-credit academic, professional and vocational programs. This serves a number of purposes:

- A uniform unit of measure for continuing education and training
- A nationally recognized unit of measure
- A concept that can be used by different sponsors
- A concept useful in a variety of learning formats
- Criteria by which the quality of learning activities are judged
- A systemic means for program development and delivery
- Criteria by which educational sponsors are evaluated
- The documentation of learning experiences

Most organizations will approve contact hours and some will approve Continuing Education Units (CEUs) or Continuing Education Recognition Points (CERPs).

In order to receive approval for contact hours, an organizer must have formally applied for it and have undergone a review and approval process.

Any organization or program that approves contact hours, CEUs or CERPs will require very specific wording on a certificate of attendance, including an approval number or code. Check your certificate upon receipt, to ensure it includes all the details you need for recertification.

DONA International will accept contact hours (or their equivalent in countries outside of North America) from any of the Approved Providers listed below:

### **Alternatives to Continuing Education for Recertification**

DONA International is committed to making recertification as available and affordable as possible. The following alternatives for all or part of the continuing education contact hour requirements are approved.

A total of eighteen (18) contact hours are required for recertification as a postpartum doula. It is acceptable to combine alternative contact hours with formal contact hours from recognized organizations that provide contact hours for maternal/child health professionals. Each alternative option has been assigned a maximum number of available contact hours, which means that there is a limit to the number of contact hours that may be earned for any given activity.

Recertifying doulas accumulating alternative contact hours with any of the following options for Alternatives to Continuing Education must complete the appropriate verification form for each individual activity. Read the instructions thoroughly and complete each verification form accurately for each individual activity, attaching any supporting documentation required and acquiring any necessary signatures.
