H. R. 1

To amend title XIX of the Social Security Act to provide coverage under the Medicaid program for services provided by doulas and midwives, and for other purposes.

IN THE HOUSE OF REPRESENTATIVES

Ms. MOORE introduced the following bill; which was referred to the Committee on

A BILL

To amend title XIX of the Social Security Act to provide coverage under the Medicaid program for services provided by doulas and midwives, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “Mamas First Act”.

SEC. 2. FINDINGS.

Congress finds the following:

(1) According to the Centers for Disease Control and Prevention, the maternal mortality rate var-
ies drastically for women by race and ethnicity. On average, there are 12.7 deaths per 100,000 live births for White women, 43.5 deaths per 100,000 live births for African American women, 32.5 deaths for American Indian and Alaskan Native women, and 14.4 deaths per 100,000 live births for women of other ethnicities. While maternal mortality disparately impacts African American women and indigenous women, this urgent public health crisis traverses race, ethnicity, socioeconomic status, educational background, and geography.

(2) United States maternal mortality rates are the highest in the developed world and are increasing rapidly.

(3) Many of these maternal deaths are likely preventable.

(4) According to the National Institutes of Health, doula-assisted mothers are four times less likely to have a low-birth-weight baby, two times less likely to experience a birth complication involving themselves or their baby, and significantly more likely to initiate breastfeeding.

(5) Midwife-led care is associated with cost savings, decreased rates of intervention, lower cesarean
rates, lower preterm birth rates, and healthier outcomes for mothers and babies.

(6) Midwives may practice in any setting, including the home, community, hospitals, clinics, or health units.
